PROJECTS

E-COMMERCE WEBSITE

A user-friendly grocery website for seamless online shopping. Added features like easy cart management, and secure checkout to make shopping convenient for customers.

SURVEILLANCE CAR CONTROLLED VIA DTMF

The robot is in the form of a vehicle mounted with a web cam, which acquires and sends pictures to the user by the means of a web application or a web application gateway. The movement of vehicle is controlled by microcontroller in fusion with DTMF module and L298N IC.
